huffman-tools

[Huffman](#) tools to compress & decompress

Build in **Python 3**

Todo:

- Compression
    - ☑ Extract content from file
    - ☑ Compress file
    - ☐ Read file in byte array
- Decompression
    - ☑ Extract compressed content from file
    - ☑ Decompress file
    - ☑ Decompressed file content is the same as the original file content
    - ☐ Read file in byte array
- ☑ CLI (Command Line Interface)

Usage

```
[TP_HUFFMAN] $ python3 huffman.py -c leHorla.txt
# OUTPUT => Your content has compressed in: leHorlaEncode.txt
[TP_HUFFMAN] $ python3 huffman.py -d leHorlaEncode.txt
# OUTPUT => Your content is in: leHorlaDecode.txt
```
